

KS2 & 3 Booster Course - English

Worried your child's education has fallen behind?
Our top tutors can close that gap

Enrol your child on our LIVE, interactive online teaching programme
this half term

This course will run during half term, you can choose your start date:
19th October or 26th October

£375 per child, **ENROL NOW** and we will take care of the rest!

Our Approach:

All children progress at different speeds and meet different hurdles in their learning, they need bespoke learning plans and individual support. Our programme meets these requirements by offering small class sizes of up to 20 students. We provide immediate feedback to enable students to progress at their own speed. By using a combination of video link and interactive software, the teacher will provide live tuition. All exercises are marked automatically and results are recorded.

The programme consists of 6 hours per day for five days, covering the whole syllabus. Pupils will be assessed at the start of the programme to determine their base line performance and progress will be monitored continuously. Practice is the key to success, the greater the variety of examples the child has encountered and mastered, the less likely they are to meet unfamiliar situations.

Course designed by
Myddelton College

Course Leader - Sally Dale:

Sally Dale is currently completing her Masters at Oxford University, having received her Bachelors Degree in English Language and Linguistics with Educational Theory. She has more than 10 years of experience in English teaching at a multitude of schools. She has also held leadership positions at Prestfelde School and Adcote School.

About Myddelton College:

Myddelton College, one of the fastest growing independent schools in the UK has teamed up with leading educational specialists to ensure that your child is fully equipped to enter into the next phase of their studies.

Myddelton College is a co-educational independent boarding school located in Denbigh, North Wales. At Myddelton, there is a focus on 21st Century Learning, as well as engaging specialist programmes such as our 'Learning Through the Outdoors' programme, which encourages our students to learn and apply knowledge beyond the classroom.
