MYDDELTON INVENTORS' ACADEMY

8 DAYS. 1 INVENTION. 100% YOURS.

The Myddelton Inventors' Academy is an eight-day journey from a first idea to a finished invention.

Working in international teams, students identify a real-world problem, explore the science behind possible solutions, build and test a physical prototype and use technology and AI critically along the way.

The experience combines science, engineering, creativity, English, teamwork and communication — with students learning by making, testing, failing and improving.

THINK → DISCOVER → BUILD → EXPLORE

MYDDELTON COLLEGE SUMMER CAMP

By the end of the Academy, each team will have:

- Created a physical prototype
- Tested and improved their invention
- Used science and technology to develop their ideas
- Used AI as a tool for thinking and problem-solving
